Terminology

The Terminology system allows the correct departmental terminology to be shown across plans. Departmental terminology can be set up for each user, and the definitions for each are shown on the Terminology page.

Concept	Departmental Terminology
HMG Strategic aim in regard to country X	PCRU <i>Stabilisation Aim</i>
1 <i>To enable country x to prevent its territory from being used by international terrorists and to implement a poverty reduction strategy</i>	DFID Goal
	S/CRS Overarching Mission Goal
	MoD Strategic Objective
	FCO Strategic Aim
Strategic-level objectives that must be achieved to ensure the aim is reached	PCRU <i>Stabilisation Objective</i> 3
	DFID Purpose
• An effective security sector able to control its own territory	S/CRS Major Mission Element
• Measurable progress towards MDG by 2010	MoD Interim Objective/Line of Effect
	FCO Strategic Objective

Reset fields Submit Modifications

- 1 Terminology Definition**
Describes the meaning and purpose of the term.
- 2 Department**
This area shows the department name. The active one is highlighted.
- 3 Term**
Shows the term used for the relevant department.
- 4 Terminology Choice**
Allows users to set their departmental terminology.

User Groups

The screenshot shows the 'Edit User Group' window. Callout 1 points to the 'Group' dropdown (PCRU Users) and 'Description' field (All staff at PCRU). Callout 2 points to 'Rename' and 'Delete' buttons. Callout 3 points to the 'Plan Permissions' table with columns 'VIEW', 'PLAN', and 'REPORT'. Callout 4 points to the 'Membership Select from' list (laptop1, acumen, s-ali). Callout 5 points to the 'All Members' filter dropdown. Callout 6 points to the 'Users in Group' list (elwood.casey, @dfid.gov.uk). Callout 7 points to the 'Add >', '< Remove', 'Add All >>', and '<< Remove All' buttons.

The user group editor gives you control of which users can see and control plans. You can set permissions for groups rather than individuals to make this control easier. If necessary, you can make a group with only one member.

- 1 Group Name** - Select the group you want to work with and set an optional description.
- 2 Basic Actions** - Here you can rename a group or delete it.
- 3 Plan Permissions** - Set the actions permitted for the group on each plan.
- 4 Available Group Members** - Choose users to add to the group. (Hold ctrl to select multiple users)
- 5 Group Member Filter** - Shows only those available members from other groups.
- 6 Current Group Members** - View and choose users for removal. (Hold ctrl to select multiple users)
- 7 User Transfer** - When you've selected from 5 or 6, use these buttons to 'move' users across.
